

Duraluminum...

The Maintenance-Free,
alternative to Low-Cost
Steel

The Duraluminum
anodized aluminum
building is the only one
of its kind in the pre-
assembled building

industry. Unlike standard mill-finished
aluminum, anodized aluminum virtually

eliminates painting,
rusting and surface
deterioration. Non-
weld construction
allows for quick, simple
panel replacement.

Porta-King...

The Smart
Choice!

The Smart Choice For Security

- 1-3/4" thick anodized aluminum door, recessed into the floor.
- Laminated hookbolt dead lock with master key option.
- High security camlocks on operating windows.
- Optional bullet-resistant construction, security screens, through-wall transaction drawers, speaker systems, and more.

The Smart Choice For Durability

- Durasteel buildings feature structural, tubular, floor-to-ceiling steel framework, and painted galvanized steel construction on all exposed surfaces.
- Duraluminum buildings are manufactured of top-quality anodized aluminum.
- 5-year warranty on Duraluminum wall panel construction. 5-year warranty on any anodized aluminum surface from oxidizing. 10-year warranty on membrane roofs from leaking.
- Top suspended anodized aluminum doors guarantee smooth operation and remain rust-free for life.
- Industrial grade anodized aluminum window frames.
- Aluminum treadplate floor never rusts.

For fast, easy, convenient pre-assembled building construction, go with the leader: Porta-King. ADA compliance available on all Porta-King buildings.

Durasteel...

Built-In Strength,
Durability,
Security
and
Aesthetics

Durasteel pre-assembled buildings blend the best of both worlds: The strength of steel for long-lasting durability and security, and seamless construction for eye-appealing good looks. Custom designs

and a variety of options make Durasteel the smart choice.

PC Series...

The Strength
of Steel,
the Economy
of Aluminum
Aluminum

Pan constructed steel structures meet two important design criteria. First, the strength and durability of steel. Second, economical construction that means significant savings. Custom designs and a host of options meet virtually every requirement.

Shelters...

Economical
Protection
for
Equipment
and
People

Modular and pre-assembled shelters are perfect for protecting equipment and people from the elements - ideal for bus, smoking, taxi, shuttle and valet shelters, pay stations, token/ticket purchase areas, money

access equipment, and more.
